

COVID-19 PUBLIC INFORMATION BRIEFING

June 11, 2020 7:45 PM EDT

06/11/20 Daily COVID-19 Case Summary and Activities

To help answer questions, the Kentucky Department of Public Health has created a toll-free hotline: COVID-19 Hotline (800) 722-5725.

County	Current Cases	Hospitalized	Self-Isolated	Released from Isolation	Deaths	Total Cases
Adair	4	1	3	78	19	101
Casey	4	0	4	6	0	10
Clinton	0	0	0	5	0	5
Cumberland	0	0	0	5	0	5
Green	1	1	0	1	0	2
McCreary	0	0	0	13	0	13
Pulaski	10	1	9	59	2	71
Russell	12	0	12	21	4	37
Taylor	2	0	2	13	1	16
Wayne	1	0	1	9	0	10
Total	34	3	31	210	26	270

Deaths: We are happy to report no new deaths today.

Hospitalizations: No new hospitalizations today.

Released: We released 2 cases today from isolation (recovered). Therefore, we have released 77% of our total cases. Taking all things into account, this leaves us with 34 active cases in our district across 7 of our 10 counties.

New Cases: We report that our total case count has increased by 4 today: Pulaski: 3; Russell: 1; The new cases include:

Pulaski: A 75-year-old male who is self-isolated

LCDHD County Health Centers

Adair • Casey • Clinton • Cumberland • Green • McCreary • Pulaski • Russell • Taylor • Wayne

Call (800) 928-4416

Hearing or speech impaired callers: call the Kentucky Relay Service at (800) 648-6056.
Give the communications assistant our phone number to contact us.

COVID-19 PUBLIC INFORMATION BRIEFING

June 11, 2020 7:45 PM EDT

Pulaski: A 22-year-old female who is self-isolated

Pulaski: A 69-year-old male who is self-isolated

Russell: A 29-year-old male who is self-isolated

Remember, avoiding crowds as much as possible remains your best way to reduce your risk. Washing your hands with soap and water often and thoroughly, wearing a mask when out in public, staying home if you have a fever or are coughing, increasing sanitation, and avoiding touching your face further reduces your risk

The Lake Cumberland area has experienced 270 Cumulative Confirmed Cases and there have been 11,945 Confirmed COVID-19 cases across 119 Kentucky Counties as of 06/11/20. Regardless of the confirmed case count for any Lake Cumberland County, we believe COVID-19 to be widespread. LCDHD is working to identify and contact all those with whom any positive case may have come into close contact.

The virus is thought to spread mainly from person-to-person:

- Between people who are in close contact with one another (within about 6 feet).
- Respiratory droplets produced when an infected person coughs or sneezes.
- Droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
- While you are sick, wash your hands before and after you interact with pets and wear a face mask.
- Put on a face mask before you enter a healthcare facility or any time you may come into contact with others.
