Clinton County Local Board of Health Meeting Tuesday February 26, 2019 6:00 pm cst.

Members Present:

Members Absent:

Dr. Charles Dailey, DVM

Dr. Michael Wilson, MD

Dr. Susan Cash, DMD

Judith Brown, RN

Carol Denney, APRN

Heather Brown-Conner, OD

Ricky Craig, Judge Executive

Christy N. Guffey

Others Present:

Lala Haddix

Shawn Crabtree, Director

Laura Ann Roberts, Pharmacist

Tracy Aaron, Health Education

Dr. William C. Powell, MD

Shannon Beaty, Health Education

James A. Staton, Engineer

Gail Fryman, Office Manager

The meeting was called to order by Board Chairman Dr. William C. Powell. He asked for a motion to approve minutes from last meeting. Motion to approve minutes was made by Christy Guffey and seconded by James Staton. All voted yea.

Old Business: Mr. Crabtree informed the board that items approved for last fiscal year had been purchased except for computers and printers which will be purchased as needed.

New Business: None

Health Education Report: Shannon Beaty, Health Education gave the board a snapshot report of data. The data included Demographics, Economics and Social, Health Factors/Behaviors. She provided handouts to the board showing the percentages. The percentages were broken down based by County, District, Kentucky State and National. She also gave a report from Clinton County Health Coalition. Goal 1: To reduce second hand smoke. Strategy: Smoke Free Ordinance. Goal 2: To reduce childhood obesity. Strategy: Improve consumption of fruit and vegetables and increase physical activity.

Setting Tax Rate: The board discussed the proposed budget at the current tax rate of 0.035 cents per 100.00 of assessed property value. They were also provided a proposed budget at 0.0397 and 0.042 cents per 100.00 of assessed property value. James Staton made a motion to leave the tax rate at the current rate of 0.035 cents per 100.00 of assessed property value. Motion was seconded by Dr. Charles Dailey. All voted yea.

Approval of Budget: Mr. Crabtree presented the board with a hand out of the budget and explained in detail. The board had three different budget options. All budget options included removing wallpaper and painting clinic area, purchasing an automatic generator and a mini grant to help build a Farmers Market. Lala Haddix made a motion to approve the budget based on 0.035 cents per 100.00 of assessed property value. Motion was seconded by Carol Denney. All voted yea.

Expiration of board member's terms: The board had six members whose terms will expire at the end of the year. Dr. William C. Powell, MD, Dr. Michael Wilson, MD, Dr. Susan Cash, DMD, Carol Denney, APRN, Laura Ann Roberts, Pharmacist and Christy N. Guffey. All members agreed to fill out paperwork to continue to serve on the board. The paper work will be submitted to the Director. The Director will review and send the paper work to Frankfort for final consideration.

Election of officers: Motion was made by Dr. Charles Dailey to leave current officers in place. Shawn Crabtree, Board Secretary, Dr. William C. Powell, Board Chair, Carol Denney Vice Chair and James Staton, Treasurer. Motion was seconded by Lala Haddix. All voted yea.

Election of officers to serve on District Board of Health: Mr. Crabtree stated that the Judge automatically serves and local board needed to appoint one other member. Motion was made by Lala Haddix to re-nominate James Staton, who is

currently serving, to remain on District Board of Health. Motion was seconded by Christy N. Guffey. All voted yea.

Director's comments: Mr. Crabtree discussed with the board the financial situation that local health departments are facing with the governor's proposed budget. Lake Cumberland would have to make up a 2.2 million dollar increase in agency contributions for employee retirement. Health Departments are quasistate government who participate in KERS retirement, but are not included in the governor's budget. If the governor's proposal is put on hold for the next fiscal year it will give us a chance to work on the next steps we need to take. If Health Departments have to make up contributions for employee retirement there will be restructure, possibly employee layoffs and may even have to cut clinic days. He asked the members to advocate for health departments by contacting their representatives and senators.

Adjourn: James Staton made a motion to adjourn meeting. Motion Seconded by Judge Ricky Craig. All voted yea.

Shawn Crabtree, Secretary

Digitally signed by Shawn D. Crabtree Date: 2019-03-07

Dr. William C. Powell, MD Chairman

Population/Resources 2019-2020

Population

While Kentucky is ranked in the top ten unhealthiest states, our District is below the state average. Kentucky statewide population averages 34% in obesity (US – 29%) (1), 27 % in physical inactivity (US-22%) (1), and 13.8% with diabetes (2). Our district population averages 36.2 % in obesity, 32.1% in physical inactivity (an improvement from 33.6%), and 14.6 % with diabetes.(1) Our district includes ten of Kentucky's 120 counties. Eight of these ten counties are Appalachian counties. Our district is primarily rural, covers 3,720 square miles geographically, and has a population of 209,231.

Compounding the health problems in our area, an average of 7.61 % are uninsured compared to the state average of 6.7%. The state average poverty rate is 16.9%, while in the Lake Cumberland District the average is 23.9%. Language other than English is spoken in 2.63% of homes in our district. Approximately 6.1% (12,728) of our district's residents are veterans. ** We do not have a YMCA or many of the low cost health improvement opportunities offered in larger urban areas.

At present, the Diabetes Education Program is the only source of *free comprehensive* diabetes self-management education in the ten county district. Taylor County does one-on-one education at the local hospital and bills insurance. A pharmacy in Clinton County provides classes and bills insurance as well. Data has been complied and evaluated to identify the greatest need of DSME classes in order to reach population and demands. (See attached table.) We have adjusted the frequency of the classes based on population, incidence of diabetes, available diabetes education in the county, previous history of class attendance, and staffing. We provide classes twice a year in all counties except Pulaski, which has classes 3 times a year.

Resources

The local health department facilities in nine of the ten counties have adequate meeting rooms for DSME classes with the exception being in Casey County. The DSME classes in Casey County are held at the County Extension Office Education Building or the Casey County Public Library free of charge. Three Diabetes Educators (RN, CDE's,) teach DSME classes throughout the district. Interpreters are utilized for one-on-one education when non-English speaking individuals need assistance with diabetes education.

Family & Youth Services Bureau Sexual

Risk Avoidance Education (SRAE)

Overview of SRAE Program / Making a Difference (MAD)
September 30, 2016 through October 1, 2019

Awarded: \$972,151

Lake Cumberland District Health Department was awarded the Sexual Risk Avoidance Education (SRAE) grant from the Family and Youth Services Bureau providing funding to implement Making a Difference (MAD) curriculum from September 30, 2016 through October 1, 2019.

Making the Difference (MAD) Program was implemented in all 14 middle schools across Lake Cumberland

- 13 School Districts
- 7,264 Unduplicated Middle School Students
- 1425 Behavioral Change Presentations
- 81% of the 7,264 adolescents reported that their belief of practicing abstinence will help them achieve their career goals
- 4% Teen birth rate decrease between 2017 and 2018

Building Resilient Youth Conference - July 25, 2019

Office of Adolescent Health

Overview Two-Year Teen Pregnancy Prevention (TPP) Grant July,15 2019 - June 30, 2021

Awarded: \$986,000

Lake Cumberland District Health Department was awarded the Phase I Tier 1 projects to replicate programs that have been proven effective through rigorous evaluation to reduce teenage pregnancy, behavioral risk factors underlying teenage pregnancy, or other associated risk factors.

Reducing the Risk (RTR) will be implemented in all 12 high schools across Lake Cumberland

RTR will assist high school students to delay the initiation of sex or increase the use of protection against pregnancy and STD/HIV if they choose to have sex. This research-proven approach addresses skills such as risk assessment, communication, decision making, planning, refusal strategies and delay tactics.

Performance measures

- 95% of sites will implement the programs
- 60% of sexually active participants will report they are more likely to use protection to avoid pregnancy and/ or STD's
- 80% of participants from both programs will report the program was beneficial
- 90% of TOP participants will have eliminated at least 2 risk factors
- 80% of TOP participants report more confidence in handling challenging issues
- Decrease LCDHD teen birth rates by 5%
- Decrease LCDHD STD rates by 5% by practicing abstinence will help them achieve their career goals

Teen Outreach Program

Casey and McCreary Counties

Wyman's Teen Outreach Program® (TOP®) promotes the positive development of adolescents through curriculum-guided, interactive group discussions; positive adult guidance and support; and community service learning.

TOP is delivered by trained adult facilitators across a school year to groups of teens (called "TOP Clubs"). TOP is designed to meet the developmental needs of middle and high school teens and can be implemented in a variety of settings, including in-school, after-school, through community-based organizations or in systems and institutional settings, including residential facilities.

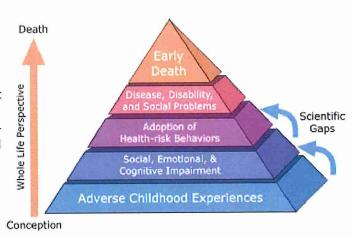

TOP curriculum is focused on key topics related to adolescent health and development, including building social, emotional, and life skills; developing a positive sense of self; and connecting with others.

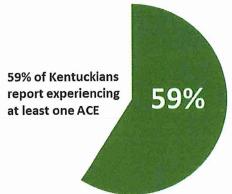

ADVERSE CHILDHOOD EXPERIENCES (ACEs)

Adverse Childhood Experiences (ACEs)

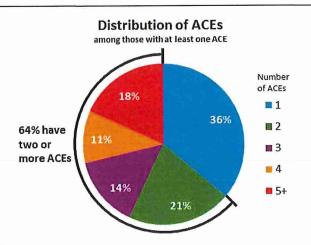

Adverse childhood experiences (ACEs) are potentially traumatic events that can have negative, lasting effects on health and well-being including early death¹. These experiences range from physical, emotional, or sexual abuse to parental divorce or the incarceration of a parent or guardian. The original ACE Study was a research study conducted by Kaiser Permanente and the Centers for Disease Control and Prevention. Participants were recruited to the study between 1995 and 1997 and have been in long-term follow up for health outcomes. The study has demonstrated that ACEs are common, often occur together, and are associated with health and social problems as an adult^{2,3}.

Prevalence of ACEs in Kentucky

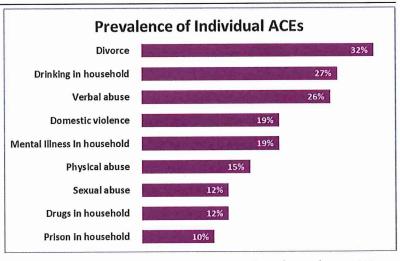

More than half (59%) of Kentucky residents have experienced at least one ACE. Of those that have experienced at least one ACE, 64% have experienced two or more ACEs.

Data Source: Kentucky Behavioral Risk Factor Surveillance (KyBRFS); Year 2015

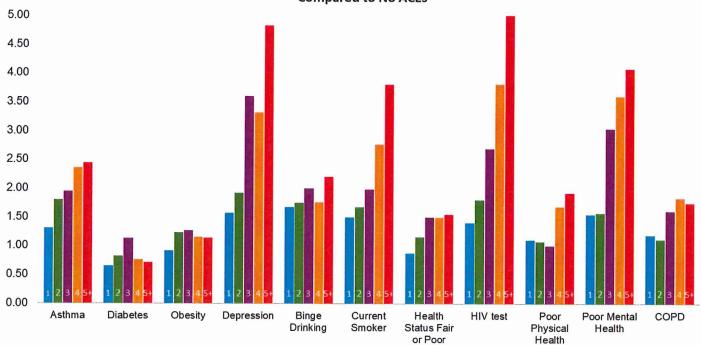

Common ACEs in Kentucky

Data from the Kentucky Behavioral Risk Factor Surveillance (KyBRFS) indicates that several Kentucky adults experienced various types of ACEs. Of those experiencing at least one ACE, 32% experienced divorce in the household, 27% experienced drinking (problem drinker or alcoholism) in the household, and 26% experienced verbal abuse. These data suggest that ACEs are very common in Kentucky and should be addressed during routine health care visits.

Data Source: Kentucky Behavioral Risk Factor Surveillance (KyBRFS); Year 2015

Increased Risk of Condition/Behavior By Number of ACEs Present Compared to No ACEs

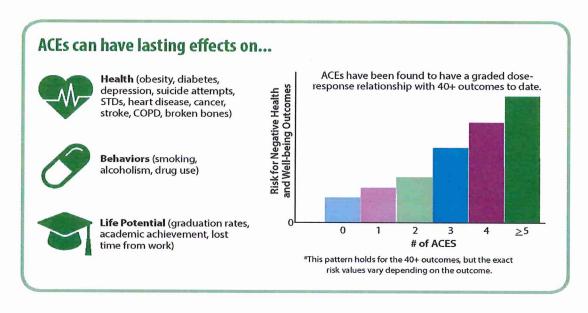

Data Source: Kentucky Behavioral Risk Factor Surveillance (KyBRFS); Year 2015

HIV test=Human Immunodeficiency Virus test COPD=Chronic Obstructive Pulmonary Disease

This data supports addressing ACEs in the health care setting as well as in communities. A better understanding of the adverse events experienced by an individual during childhood could provide insight into their physical and mental health status as an adult. All families experience times of stress, and research demonstrates that children grow and learn best in families who have the supports and skills to deal with those times.

^{*} Estimated Assessment

I, Thomas S. Crawford, Director, Division of Local Support, certify that the above total is the equalized assessment of the different classes of property and the total assessment of CLINTON County as made by the Office of Property Valuation for 2019, subject to any increases or decreases that may hereafter be made as a result of the appeals to the Kentucky Board of Tax Appeals.

Witness my hand this

7-16-2019

Thomas S. Crawford, Director Division of Local Support Office of Property Valuation Finance and Administration Cabinet
