Jobs The most common employment sectors are Administrative, Sales and Production. 85% of Pulaski County's population drives alone to work and 20% drive further than 30 minutes to work.

Health

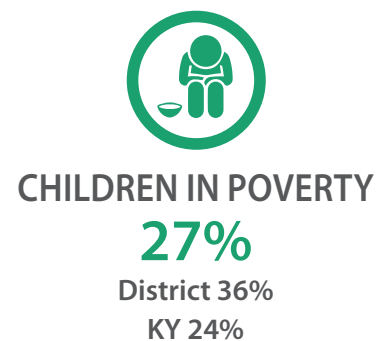

Lake Cumberland Regional Hospital is a 223 bed hospital. Health care provider ratios are: Primary Care Physicians 1,330:1; Dentists 1,390:1 and Mental Health Providers 350:1. 8% of the people under 65 are uninsured. Pulaski County is designated as a Medically Underserved Area/Populations (MUA/P) and Health Professional Shortage Area (HPSA).

What makes us healthy?

Many factors combine together to affect the health of individuals and communities. Whether people are healthy or not, is determined by their circumstances and environment. To a large extent, factors such as where we live, the state of our environment, genetics, our income and education level, and our relationships with friends and family all have considerable impacts on health, whereas the more commonly considered factors such as access and use of health care services often have less of an impact.

PULASKI COUNTY

Working on Wellness Coalition Vision Statement:

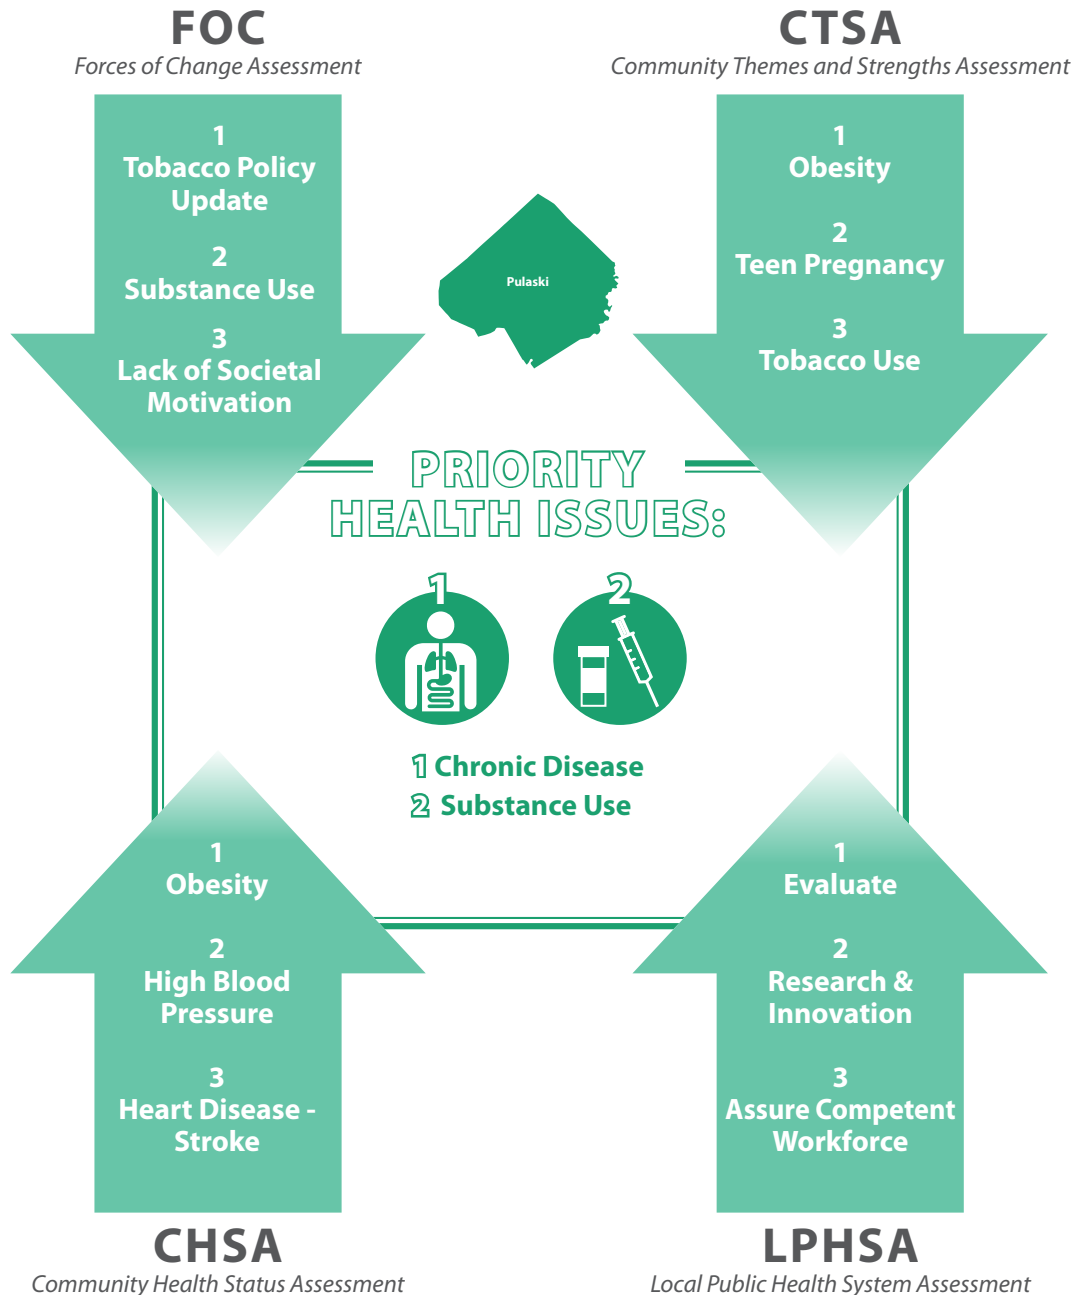

A more livable Pulaski County through both personal and shared responsibility, for the overall health and well-being of our community.

Sources: US Census Bureau: State and County Quick Facts, August 23, 2018. County Health Ranking, 2018.

PULASKI COUNTY

The Pulaski County Working on Wellness (WOW) Coalition completed the Mobilizing for Action through Partnerships and Planning (MAPP), a community driven strategic planning tool in Spring 2018. Through the four assessments of this process, the following themes were identified as areas to research and determine strategies to improve the health outcomes of Pulaski County residents.

PULASKI COUNTY: RESOURCES OR ASSETS INVENTORY

Pulaski County (Working on Wellness) WOW Coalition

The priority health issues selected are Chronic Disease and Substance Use. To address these issues the health coalition has created a listing of assets and resources that will be employed to improve the health of Pulaski County residents

Chronic Disease

- Center for Rural Development - Health Fairs/Events
- Children's Botanical Garden
- Health Department nutrition events
- Farmers Markets
- Fishing Creek Recreational Area
- Health Department diabetes education classes
- Kentucky Cancer Program
- Pulaski County Cooperative Extension Service - health and wellness focused classes
- Pulaski County Government Park & Recreation Areas
- Pulaski County Public Library - health and wellness classes
- Pulaski County Working on Wellness (WOW) Coalition
- Pulaski County, Somerset Independent, and Science Hill Schools FRYSC health programs
- City of Somerset - Recreational Facilities (Rocky Hollow Recreation Area, SomerSplash Water Park, SomerSport Park)
- Sierra Club - hiking
- Journey to Fitness walk/run series
- Phoenix Racing

Substance Use

- Adanta Community Health Center
- Celebrate Recovery
- UNITE Coalition
- Pulaski County ASAP programs
- Freedom from Smoking Classes
- Quit Now Hotline
- AA programs
- Bethany House Abuse Shelter
- Sky Hope Center
- Syringe Exchange

PULASKI COUNTY COMMUNITY HEALTH SURVEY

A community health assessment survey was completed in January 2018. There were 782 individuals that completed the survey. The survey results assisted in identifying prioritizing health issues. Below are a few of the questions and answers from the survey.

What do you think are the THREE most important factors for a "Healthy Community?" (Those factors which most improve the quality of life in a community)

| Answers Top Three | % of Respdnts |
|-----------------------------|---------------|
| Low crime/safe neighborhood | 46.55% |
| Drug-free community | 45.78% |
| Good jobs/healthy economy | 44.88% |

What do you think are the THREE groups the needs the most help with access to health care?

| Top Three Answers | % of Respondents |
|---------------------|------------------|
| Elderly | 30.18% |
| Low-income families | 28.61% |
| Middle Class | 19.03% |
